

# GUARDIAN Antibacterial Hand Sanitizer

GUARDIAN kills 99.9% of bacteria on hands and conforms to the hand washing guidelines established by the Center for Disease Control. It contains 65% ethyl alcohol with Triclosan, which provides residual germ-killing properties even after 1-2 hand washings. The Vitamin E in GUARDIAN adds softness to the skin that gel sanitizers take away.

Because of GUARDIAN metered spray design, there is never any wasted product, stickiness or lingering strong scent. 1 ounce of GUARDIAN will exceed the usage of a 3 to 4 ounce gel product.

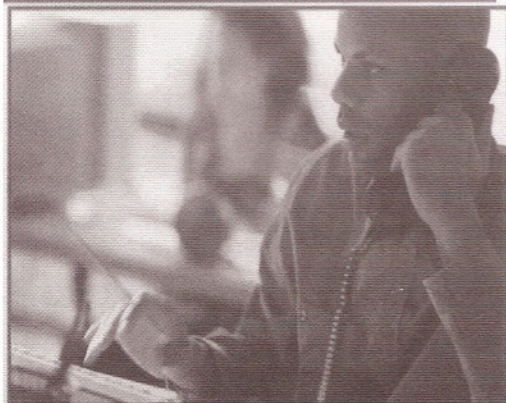

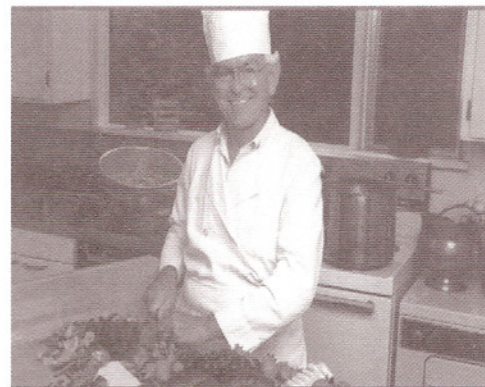

GUARDIAN is being marketed toward hospitals, nursing homes and childcare facilities as well as the food service industry for use by restaurants, caterers and hotels. If you would like additional information or product samples you can visit our web page at [www.hand-sanitizer.com](http://www.hand-sanitizer.com) or call us at (502) 633-0650, extension 208 or 223.

GUARDIAN Antibacterial hand sanitizers should be used to reduce the risk of cross contamination between medical staff, patients, employees and children, including food preparation and food handling.

An excellent product for...

Hospitals, Nursing Homes,  
Clinical Laboratories, Physician  
Offices, Day Care Centers,  
Kindergartens, Food Services,
